

Delegates Report:

Norway, NFES

In Norway there are two associations for private investigators. Our competitive association just changed their name to almost the same as the name we have put on our association. We feel uncomfortable with this situation. Or maybe we should feel proud about other people wanting to be Mixed up with the confusion about two associations with nearly the same name !!

Our association is working for a licence to come in Norway- but this is job that will take some time. There are no signal from the government about any change in their attitude regarding this issue.

It is with regret to inform you that we are not able to be present at the meeting this year. Hopefully we will be present next year.  
Good luck with the meeting.

This is the report from Norway.

Regards

Kjetil Eide  
Secretary  
Norwegian Association of investigation and security.
